## ■ Guidelines and Conditions

---

These general trading terms apply to internet advertising on

Politiken's websites: Politiken.dk, iBYEN.dk, TJEK.dk, and tgt.dk

## ■ Entering into an Agreement

---

Advertising offers are given on the basis of the applicable price list at any time. An offer given by

Politiken is valid for 5 working days from the offer being sent.

## ■ Insertion of Banner Advertising

---

The order form must at least contain the following information: Agency order number, name and address of the advertiser, date of

the campaign start, agency number, invoice amount (exclusive of VAT), and the product agreed upon.

## ■ Delivery of Material

---

The advertising material must be delivered as specified on the order form at least 4 working days from the start of the campaign. If the material is not in accordance with the specified format, it rests with the

advertiser to have it adjusted and ready for the start of the campaign. Politiken does not reimburse the advertiser if corrections in the material are not ready for the start of the campaign.

Politiken is not responsible for errors in advertisements that are not in accordance with the order form.

## ■ Conditions of Payment

---

Politiken issues invoices for advertising from the first campaign day. Punctual payment is 14 days from the invoice date. For delayed payment a reminder

charge is issued of DKK 100. If the payment is not paid after 2 reminders have been sent out, the outstanding debt is sent for debt collection.

## ■ Postponement and Changes to Campaigns

---

Politiken reserves the right to postpone or change the execution of a given campaign. With postponement the advertiser has a claim to a subsequent delivery of the advertisement. Terms for a subsequent

delivery are agreed individually with the advertiser, but as a starting point the advertiser must have a fee of the same value as the originally agreed fee. Politiken withholds the right to

reposition a campaign, if the conditions necessitate it. If so the price is calculated on the basis of the new placement.

If a campaign is cancelled when it is underway, Politiken does not

return the remaining amount. The customer can in rare instances have the chance to settle the equivalent remaining exposures at a later date.
